In Col. 8 (Sailing Vessels), Col. 7 (Steamers), three dots ... indicate that the Vessel had a Class at one time, but it has been withdrawn at Owner's request.

In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters *a*, *b*, *c*, &c., indicate the letters and equipment numbers in Table No. 22 (Rules).

A black line with date under it in Classification Column (thus, 3,95) indicates that vessel's character was expunged from Register Book at date specified because, from reported defects, the vessel was not entitled to retain her classification; a red line with date (thus, 3,95) indicates withdrawal of class because of non-compliance with Society's Rules.

A date in Classification Column, without character, indicates that the Class has expired, or been withdrawn from absence of Survey, or non-payment of fees.

When a posting of loss, casualty, &c., is made against a classed vessel the character is expunged thus :— ~~100A1~~

✠ in the Classification Column signifies that the vessel was built under Special Survey.

LLOYD'S REGISTER OF SHIPPING

AND THE

VERITAS AUSTRO-UNGARICO.

NOTICE.

The Committee of Lloyd's Register of Shipping and the Commission of the Veritas Austro-Ungarico have entered into an agreement for the joint working of the two Institutions with a view to improving the organisation of the Veritas Austro-Ungarico and giving the Shipowners of Austria-Hungary the advantage of being able to class their vessels with both Institutions on the basis of surveys by one organisation only, thus ensuring the utmost economy and convenience.

The Veritas Austro-Ungarico having adopted the Rules of Lloyd's Register for Iron and Steel Vessels in their entirety, any such vessels constructed after this agreement came into force, that is after the 1st July, 1912, can only be classed with the Veritas Austro-Ungarico if the Rules of Lloyd's Register have been complied with. Upon application from the Owners, the cases of vessels built or commenced prior to 1st July, 1912, and holding the classification of the Veritas Austro-Ungarico, will be taken into consideration with a view to determining whether they are eligible for the double classification.

Wooden vessels can still be classed by the Veritas Austro-Ungarico in accordance with the current Rules of that Institution.

The two Institutions have a Common Office in Trieste, and the Technical Staff at Ports in Austria-Hungary is appointed by common agreement of the Committee of Lloyd's Register and the Commission of the Veritas Austro-Ungarico. At all other ports throughout the world, the Surveying Staff of Lloyd's Register is empowered by the Commission of the Veritas Austro-Ungarico to act on its behalf.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.
